SUMMARY

Experienced Full-Stack Software Engineer with over **4+** years in the tech industry. Proficient in designing scalable solutions, optimizing both front-end and back-end systems, and improving the digital presence. Known for improving development processes, delivering high-quality software, and collaborating effectively with global teams. Proven track record in increasing user engagement, operational efficiency, and customer satisfaction.

PROFESSIONAL EXPERIENCE

Deloitte, Bengaluru, Karnataka: SDE

Sept 2024 – Present

- Worked on a high-profile Deloitte project for Canada Post, enhancing core Shipping Systems and Mobile Web applications using Angular, TypeScript, and Java.
- Improved performance and user experience of mobile platforms, contributing to greater operational efficiency and customer satisfaction.
- Delivered US De-Minimus in **2 weeks**, resulting in retaining **20%** of the shipment going from Canada to the USA, resulting in securing **\$10 Million**.
- Fixed various vulnerabilities and security updates for the key application Snapshot of Canada Post, increasing code coverage by **37%**.
- Helped reduce applicable user tax from **15%** to **14%** by implementing optimized tax logic and streamlined system workflows.
- Contributed to Canada Post's sustainability efforts by supporting initiatives aimed at achieving carbon neutrality through eco-conscious development practices.
- Enhanced pricing transparency across the platform, resulting in a **10%** reduction in legal expenses by mitigating disputes and improving compliance clarity.
- **Tech Stack** : Angular, TypeScript, JavaScript, MySQL, HTML, CSS

Koach AI, Bengaluru, Karnataka: SDE

August 2022 – July 2024

- Developed and launched a mobile app tailored for both **B2B** and **B2C** markets, significantly enhancing user experience and achieving over **5K+** downloads on Google Play Store and the Apple App Store
- Reduced administrative tasks by **30%** through the creation of a new admin website and enhanced the company's website visibility and accessibility by implementing effective SEO strategies
- Implemented Google Analytics to provide in-depth insights into user behavior, integrated Google Authentication for secure and seamless user login, and set up a payment gateway to facilitate efficient online transactions
- **Tech Stack** : Angular, TypeScript, JavaScript, Ionic, Cordova, Capacitor, NodeJs, MySQL, AWS S3, HTML, CSS

Skywinds Solutions, Remote: SDE

Feb 2022 – July 2022

- Build dashboards for various companies, streamlining data visualization and enhancing business decision-making.
- Utilized React Material components to design and implement a wide range of services, ensuring a responsive and intuitive user interface.
- Integrated secure authentication and authorization mechanisms for safe user access to services.
- **Tech Stack** : ReactJS, JavaScript, NodeJS, Firebase, MySQL, HTML, CSS

Upjao.ai, Remote: SDE

Nov 2021 – Feb 2022

- Created an interactive map to display product data, integrating it with both the Client and Admin Portals
- Leveraged Firebase to implement secure data storage and authentication mechanisms within the Upjao app, providing a robust framework for managing user data and ensuring high standards of security and reliability
- Achieved over **500+** downloads for the app on the Google Play Store, strong user interest and engagement
- Streamlined administrative operations by **25%** through the development of a highly efficient admin website, significantly enhancing operational productivity
- **Tech Stack** : ReactJS, JavaScript, NodeJS, Firebase, MySQL, HTML, CSS

Freelance, Remote: SDE

May 2021 – Oct 2021

- Collaborated with diverse clients, including e-commerce and music apps, to create tailored website solutions

- Delivered projects that met unique business needs, enhancing the clients' digital footprints
- **Tech Stack** : ReactJS, Angular, TypeScript, JavaScript, NodeJS, Firebase, MySQL, HTML, CSS

PROJECTS

Amazon's Clone

Sept 2021 – Oct 2021

- Replicated Amazon's web platform by developing an application that allows users to manage their shopping cart, including adding and removing items as needed
- The app allows users to add items to the cart and remove them as needed, while also providing user authentication through Firebase to verify account presence
- **Tech Stack** : React, JavaScript, Firebase, HTML, CSS

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, HTML

Framework and Libraries: Angular, ReactJS, Ionic, Cordova, Capacitor

Certifications: Internshala Training Certified Programming with Python - 2019, Newton School Certified Full Stack Development - 2021

EDUCATION

B.Tech, Computer Science and Engineering

Graduation May 2020

Heritage Institute of Technology
